

Sushil Duseja

Singapore | (65) 86160165 | sushil.duseja@gmail.com | [LinkedIn](#)

Executive Summary

Product leader with 19 years of experience, including 7+ years driving digital transformation across premier Financial Services institutions (Barclays, Commerzbank). Expert at translating complex technical visions into executable product roadmaps with proven track record managing \$1-10M initiatives.

Recent AI Security & Governance and Generative AI certifications, combined with hands-on cybersecurity and platform modernization experience, position me to drive AI use case execution in regulated environments. Recognized for autonomous leadership and ability to deliver measurable results across multicultural teams.

Published preprint on SSRN proposes the Systemic Irreversibility Baseline: a tiered framework for preventive AI governance. ISO 27001 lead auditor. Active in AI safety and governance community.

Core Competencies

Product & Strategic Leadership

- Product Strategy & Roadmap Development • User Story Engineering & Acceptance Criteria • Backlog Prioritization • Stakeholder Management & C-Suite Communication • Business Case Development

Digital Transformation & Innovation

- Agile at Scale Implementation • Design Thinking Facilitation • Data-Driven Decision Making • AI/ML Product Integration

Risk & Regulatory Excellence

- MiFID II, CFTC, EMIR, Dodd-Frank Compliance • Cybersecurity Governance • Risk Assessment & Mitigation • Regulatory Impact Analysis • Audit Management

Technical Proficiency

- **Languages & Frameworks:** Java/Spring Boot, Python, SQL, RESTful APIs, GraphQL
 - **Financial Systems:** FIX Protocol, Low-Latency OMS/EMS and Pricing Engines, Real-Time Market Data Integration, and Electronic FX/Algorithmic Trading Platforms.
 - **Cloud & Data:** AWS, ML Model Integration, Docker, Kubernetes, CI/CD
 - **Quality Assurance:** BDD/TDD, API Testing, Performance Optimization
-

Applied Artificial Intelligence (AI)

Built production-grade AI systems demonstrating practical application and reflecting systems thinking, governance focus, and operational readiness.

Professional Experience

BARCLAYS | Vice President, Business Analyst | Singapore

March 2023 – March 2025

Led £6M strategic transformation of legacy FX systems to next-generation Single Dealer Platform, serving Barclays Corporate & Investment Bank's global institutional client base.

Strategic Impact & Delivery:

- **Platform Transformation:** Translated business requirements into technical specifications for FX modernization, partnering with data engineering teams on 100+ user stories that drove 30% efficiency gains through analytics-driven automation
- **Revenue Enablement:** Designed pricing and execution enhancements supporting \$1B+ daily volume across Spot, Forward, and NDF products, achieving 99.95% platform availability for 100+ institutional clients
- **Agile Excellence:** Implemented incremental delivery model reducing feature deployment time by 25%, with month-on-month efficiency gains of 10% throughout 2024
- **Risk & Compliance:** Partnered with risk and compliance teams to ensure zero regulatory violations during platform transition, maintaining 100% data integrity across systems

Innovation & Leadership:

- Collaborated with data science teams to identify ML opportunities, facilitating cross-functional workshops that surfaced analytics use cases reducing manual processes by 40%
- Authored detailed technical specifications bridging business stakeholders and engineering teams, ensuring seamless AI/ML feature integration into production workflows

COMMERZBANK | Vice President, Product Owner | Singapore

September 2017 – July 2022

Owned product portfolio for electronic FX trading platform processing \$500M+ daily volume, managing annual budgets of \$1-10M across multiple strategic initiatives.

Revenue Generation & Market Expansion:

- **Business Growth:** Delivered 5 major trading products generating \$1M+ incremental annual revenue, including successful Japan market entry through TFX T-Clear integration
- **Product Innovation:** Launched algorithmic trading suite (Sweep, SOR, Iceberg, TWAP) reducing risk exposure by 20% and increasing trading profitability by 15%
- **Operational Excellence:** Achieved 90%+ on-time feature delivery while reducing project costs by 25% through Agile methodology optimization

Stakeholder & Team Leadership:

- Managed relationships with C-suite executives, liquidity providers, and regulatory stakeholders across the bank
- Led design thinking workshops translating user needs into 200+ prioritized backlog items
- Coordinated UAT cycles across legal, compliance, technology, and transaction reporting teams
- **Career Growth:** Promoted twice in 5 years to Chapter Lead, recognized for exceptional product leadership

IRIS Software Inc. | Associate Project Manager | India | 2017 – 2017

- **Client:** Bank of Montreal - DTCC trade confirmation and settlement platform
- Led requirements, analysis, and implementation of platform enhancements for high-volume trade processing
- Reduced application memory consumption by 30% through GC log analysis and systematic code refactoring

Mahindra Comviva | Technical Manager | India | 2016 – 2017

- **Product:** PreTUPS - prepaid recharge distribution and mobile account management platform

- Directed product development, release management, and feature delivery across distributed teams
- Cut AWS cloud spending by 25% through strategic optimization and best practice implementation
- Improved application stability by 15% by identifying and resolving code inefficiencies

R Systems International | Associate Technical Architect | India | US | 2015 – 2016

- **Client:** DMA Inc. Tax Interchange for Retail - enterprise point-of-sale tax solution
- Rebuilt client relationship and trust through consistent delivery and transparent communication
- Established architectural standards, design patterns, and code review frameworks
- Introduced Test-Driven Development (TDD), achieving 40% reduction in production defects
- Diagnosed and resolved performance bottlenecks using JVisualVM profiling tools

JK Tech | Project Lead | India | UK | 2009 – 2015

- **Client:** Specsavers Optical Group - enterprise retail and supply chain systems
- Managed complete project lifecycles from initiation through post-implementation review
- Improved Agile delivery efficiency by 20% through process refinement and team coaching
- Promoted three times in six years: System Analyst → Technical Lead → Project Lead
- Recognized with "Star of the Iteration" awards (2012, 2013) and "Star of the Quarter" (June 2011)

Fiserv | Senior Software Engineer | India | US | 2007 – 2009

- **Client:** Fiserv Trade Order Management - institutional trading platform
- Designed and built automated test framework executing 500+ tests in 7 minutes, saving 40% processing time
- Developed proof-of-concept solutions using emerging technologies (OpenESB, Apache ServiceMix)
- Delivered specifications, program changes, and comprehensive technical documentation

JK Tech | Software Engineer | India | UK | 2005 – 2007

- **Internal Products:** iTimer timesheet application and corporate website modernization
- Introduced automated unit testing frameworks, reducing manual testing effort by one man-day monthly
- Mastered Agile and iterative development methodologies in production environments
- Supported QA, UAT, and production stabilization across multiple concurrent projects

Certifications & Executive Education

- **Product & Leadership Excellence**
 - Professional Scrum Master (PSM I) - Scrum.org (2020)
 - Finance and Financial Products - Digital University (2008)
- **AI & Security Governance**
 - AGI Strategy & Future of AI - BlueDot Impact (2026)
 - AI Security Fundamentals - Varonis University (2025)
 - AI Security & Governance - Securiti (2025)
 - Cybersecurity Governance Risk & Compliance - GRC Mastery (2024)
 - Foundations of Cybersecurity - Google (2023)
- **Emerging Technologies**
 - Generative AI for Executives - IBM (2024)
 - Cloud-Native & Multicloud Applications - IBM (2022)
 - Blockchain Essentials - IBM (2022)

Key Differentiators

- **Technical Depth + Business Acumen:** Rare combination of hands-on engineering experience with strategic product leadership, enabling rapid translation of business needs into technical solutions
- **Global Market Expertise:** Understanding of APAC and European capital markets, with proven ability to navigate complex regulatory landscapes
- **Innovation Driver:** Consistent track record of identifying and implementing emerging technologies that create competitive advantage
- **Cultural Intelligence:** Successfully led diverse, cross-cultural teams across multiple time zones and regulatory jurisdictions
