## Executive Summary

- **Delivery-Focused Technology Leader** with 19+ years advancing from hands-on execution to strategic delivery management, orchestrating mission-critical financial platforms processing **billions in daily trading** volume across global markets.
  - **Quantifiable Delivery Impact:** Orchestrated cross-functional teams on a **£6M FX system transformation** at Barclays, driving **30% improvement in delivery velocity** through agile process optimization and proactive risk mitigation; managed **multi-million-dollar delivery portfolios** at Commerzbank, enabling **15% revenue growth** through strategic stakeholder alignment and coordinated platform rollouts across engineering, QA, and business teams.
  - **Delivery Excellence:** Achieved **40%** increase in throughput, **20%** reduction in cycle times, and **99.97%** system availability through continuous process improvement and optimized delivery cycles.
  - **Regulatory & Risk Mindset:** Delivered **100% compliance** in MiFID II, Dodd-Frank regulated environments; promoted a culture of operational precision and risk management with **zero critical production incidents** over multiple audit cycles.
- 

## Core Competencies

- **Delivery & Stakeholder Management:** Led end-to-end project delivery across distributed agile teams, managed \$10M+ budgets and timelines, served as primary point of contact for stakeholders, driving 30% faster delivery through proactive issue resolution and transparent communication of risks and dependencies.
  - **Cross-Functional Coordination & Process Improvement:** Orchestrated delivery of platform modernization initiatives across engineering, QA, and business units; implemented CI/CD pipelines; established KPIs and metrics frameworks tracking delivery performance, velocity, and quality, achieving 60% reduction in bottlenecks.
  - **Agile Delivery & Risk Management:** Managed backlogs and sprint execution; proactively identified, assessed, and mitigated delivery risks; escalated critical issues and drove timely resolution for real-time trading and risk platforms handling billions daily.
  - **Global Delivery & Tools:** Managed distributed team delivery models across time zones; leveraged Jira, Confluence, CI/CD tools, and cloud platforms to coordinate execution; optimized delivery workflows enabling high-performance, compliant financial platform releases.
  - **Technical Fluency:** Hands-on background in Java/Spring Boot, Python, SQL, GraphQL APIs, Kafka/Solace, and KDB+ enables credible technical dialogue with engineering teams, accurate estimation, informed risk assessment, and effective bottleneck diagnosis during delivery execution.
  - **Financial Services Delivery:** Coordinated delivery of FIX Protocol integrations and real-time market data systems across engineering and quant teams, ensuring seamless connectivity and on-time rollout for billions in daily financial transactions.
-

## Applied Artificial Intelligence (AI)

Built production-grade AI systems demonstrating practical application and reflecting systems thinking, governance focus, and operational readiness.

## Professional Experience

### Barclays | Vice President, Project Manager – Platform Modernization | Singapore March 2023 – March 2025

- **End-to-End Delivery Leadership & Stakeholder Management:**
  - **£6M Project Delivery:** Owned end-to-end delivery of FX system transformation initiative across engineering, QA, and platform teams; managed scope, timelines, and quality standards; served as primary stakeholder contact -- delivering 99.97% uptime and 80% faster deployment cycles for 100+ institutional clients.
  - **Cross-Functional Team Coordination:** Coordinated distributed teams across engineering, QA, and business units; facilitated daily standups, sprint planning, and retrospectives; improved delivery velocity by 30% through agile best practices and proactive bottleneck resolution.
  - **Risk Management & Compliance:** Identified and mitigated delivery risks through automated quality gates and CI/CD governance; communicated risk status and dependencies regularly to stakeholders; drove 60% reduction in vulnerabilities and ensured 100% compliance with MiFID II, Dodd-Frank.
  - **Strategic Alignment:** Aligned delivery outcomes with business objectives and customer expectations; coordinated multi-region rollout of pricing and trade execution features; communicated delivery status transparently -- enabling significant revenue growth across global FX operations.
- **Process Improvement & Metrics-Driven Delivery:**
  - **Continuous Process Improvement:** Implemented delivery workflow optimizations, Jira automation, and Confluence documentation standards; reduced manual coordination effort by 40% and improved team productivity.
  - **Delivery KPIs & Performance Tracking:** Established metrics and KPIs tracking delivery velocity, sprint burndown, defect rates, and system performance; proactively identified trends and drove efficiency improvements -- achieving flawless audit cycles with zero critical incidents.

### Commerzbank | Vice President, Project Manager – Algo Trading Solutions | Singapore September 2017 – July 2022

- **Delivery Management & Business Alignment:**
  - **Multi-Million Dollar Project Portfolio:** Managed end-to-end delivery of FX front-office and risk platform enhancements handling \$500M+ daily volume; coordinated cross-functional teams (quant, engineering, business); aligned delivery with strategic market expansion goals -- driving 15% revenue growth and enabling Japan market entry via TFX T-Clear.
  - **Agile Transformation & Team Excellence:** Led Agile transformation across 10 FTEs and 3 contractors; facilitated Scrum ceremonies (sprint planning, daily standups, retrospectives);

implemented Kanban boards and Jira workflows -- reducing cycle times by 20%, boosting throughput by 40%, and improving productivity by 25%.

- **Delivery Optimization:** Coordinated delivery of FIX protocol integrations and trading adapter optimizations across engineering and platform teams; managed dependencies and timelines -- increasing processing speed by 10% and execution speed by 15%.
- **Risk Mitigation & Quality Delivery:** Proactively identified delivery risks in regulatory reporting initiatives; escalated critical issues and drove resolution; coordinated testing and compliance validation -- achieving 10% accuracy gains and 100% flawless audit record.
- **Stakeholder Communication & Escalation:**
  - Served as primary point of contact for legal, compliance, and vendor stakeholders; communicated delivery status, risks, and dependencies clearly and regularly; coordinated deployment windows and change management -- ensuring seamless rollouts and sustained uptime.

## **IRIS Software Inc. | Associate Project Manager | India | 2017 – 2017**

- **Client:** Bank of Montreal - DTCC trade confirmation and settlement platform
- Led requirements, analysis, and implementation of platform enhancements for high-volume trade processing
- Reduced application memory consumption by 30% through GC log analysis and systematic code refactoring

## **Mahindra Comviva | Technical Manager | India | 2016 – 2017**

- **Product:** PreTUPS - prepaid recharge distribution and mobile account management platform
- Directed product development, release management, and feature delivery across distributed teams
- Cut AWS cloud spending by 25% through strategic optimization and best practice implementation
- Improved application stability by 15% by identifying and resolving code inefficiencies

## **R Systems International | Associate Technical Architect | India | US | 2015 – 2016**

- **Client:** DMA Inc. Tax Interchange for Retail - enterprise point-of-sale tax solution
- Rebuilt client relationship and trust through consistent delivery and transparent communication
- Established architectural standards, design patterns, and code review frameworks
- Introduced Test-Driven Development (TDD), achieving 40% reduction in production defects
- Diagnosed and resolved performance bottlenecks using JVisualVM profiling tools

## **JK Tech | Project Lead | India | UK | 2009 – 2015**

- **Client:** Specsavers Optical Group - enterprise retail and supply chain systems
- Managed complete project lifecycles from initiation through post-implementation review
- Improved Agile delivery efficiency by 20% through process refinement and team coaching
- Promoted three times in six years: System Analyst → Technical Lead → Project Lead
- Recognized with "Star of the Iteration" awards (2012, 2013) and "Star of the Quarter" (June 2011)

## **Fiserv | Senior Software Engineer | India | US | 2007 – 2009**

- **Client:** Fiserv Trade Order Management - institutional trading platform
- Designed and built automated test framework executing 500+ tests in 7 minutes, saving 40% processing time
- Developed proof-of-concept solutions using emerging technologies (OpenESB, Apache ServiceMix)
- Delivered specifications, program changes, and comprehensive technical documentation

## JK Tech | Software Engineer | India | UK | 2005 – 2007

- **Internal Products:** iTimer timesheet application and corporate website modernization
  - Introduced automated unit testing frameworks, reducing manual testing effort by one man-day monthly
  - Mastered Agile and iterative development methodologies in production environments
  - Supported QA, UAT, and production stabilization across multiple concurrent projects
- 

### Certifications & Executive Education

- **Leadership & Governance:** ISO/IEC 27001:2022 Lead Auditor (2025), AI Security & Governance (2025), Cybersecurity Governance Risk & Compliance (2024)
  - **Executive Development:** Generative AI for Executives, IBM (2024), Professional Scrum Master (PSM I) (2020)
  - **Technology Leadership:** Cloud-Native & Multicloud Applications (2022), Blockchain Essentials (2022), Foundations of Cybersecurity (2023)
- 

### Key Differentiators

- **Technical Depth + Business Acumen:** Rare combination of hands-on technical experience with strategic delivery management, enabling effective coordination between technical teams and business stakeholders while translating requirements into actionable delivery plans.
- **Global Delivery Experience:** Managed distributed teams across APAC and European markets, with proven ability to coordinate delivery across time zones and navigate complex regulatory landscapes.
- **Process Innovation:** Consistent track record of identifying and implementing process improvements, delivery automation, and metrics frameworks that create competitive advantage and operational efficiency.
- **Continuous Improvement Mindset:** Proactive in adopting agile best practices, DevOps automation, and delivery tools; continuously evaluates and integrates methodologies that improve delivery velocity, quality, and team performance.
- **Stakeholder Management Excellence:** Successfully coordinated diverse, cross-cultural teams and stakeholders across multiple time zones, communicating clearly and building trust through transparent delivery reporting and proactive risk management.
