Executive Summary

Agile Transformation Leader and Certified Scrum Master with 19 years of technology management experience, with 10+ years leading enterprise-wide Agile adoptions and building high-performing, globally distributed teams. Renowned for nurturing cultures of collaboration and continuous improvement that deliver value, drive measurable impact, and accelerate change across \$10M+ programs.

Core Competencies

- **Agile Transformation:** Spearheaded group-wide Agile rollouts, boosting time-to-market by 25%, defect reduction by 40%, and scalability for multi-region teams.
 - **Servant Leadership:** Coached and mentored global squads, driving 30% team goal achievement improvements by facilitating open communication and continuous learning.
 - **Process Optimization:** Embedded lean workflows, CI/CD automation, and sprint retrospectives, cutting manual effort by 40% and consistently surpassing feature delivery targets.
 - **Stakeholder Engagement:** Cultivated executive buy-in via metrics-driven reporting and alignment, leading cross-functional initiatives with robust compliance and zero critical incidents.
 - **Technology Enablement:** Integrated tools (Jira, Java, Spring Boot, Python, AWS, Docker), resulting in streamlined quality assurance, test automation savings, and auditable project delivery.
-

Key Differentiators

- **Technical Depth + Change Leadership:** Unites hands-on engineering experience with enterprise-scale transformation coaching, rapidly translating business needs into optimized Agile solutions.
 - **Global Market & Regulatory Acumen:** Proven record navigating APAC and European capital markets, enabling teams to operate seamlessly across complex, multi-jurisdiction environments.
 - **Innovation Catalyst:** Recognized for driving adoption of cutting-edge Agile, automation, and AI security practices; creates competitive advantage by integrating emerging technologies.
 - **Cultural Intelligence:** Expert at building and leading diverse, multicultural teams across regions and time zones, fostering trust and sustained engagement.
 - **Mentorship & Talent Acceleration:** Architected frameworks yielding 60% internal promotions; empowers high-performing teams through targeted coaching and actionable career development.
 - **Business Value Assurance:** Executes transformation programs with zero business disruption and impeccable compliance, sustaining audit integrity and organizational resiliency.
-

Professional Experience

Barclays | Vice President | Singapore

March 2023 – March 2025

Strategic Impact & Delivery:

- Led £6M FX Agile transformation, enabling Scrum adoption for global trading systems supporting 100+ institutional clients; boosted delivery speed by 30% and platform uptime to 99.97%.
- Built centralized Agile onboarding and best practice repository, improving ramp-up time by 20% and training consistency.
- Orchestrated sprint planning accuracy improvements (25%) through targeted workshops; rolled out incremental features with month-on-month efficiency gains of 10%.
- Automated DevSecOps guardrails, ensuring 100% regulatory compliance and 60% reduced vulnerabilities.

Team & Process Leadership:

- Facilitated retrospectives and cross-team collaboration, reducing manual workload by 40% and increasing satisfaction scores.
- Defined measurement frameworks for team metrics, supporting predictable delivery and audit reliability.

Commerzbank | Vice President | Singapore

September 2017 – July 2022

Business Growth & Agile Transformation:

- Transformed waterfall teams to Scrum, improving delivery cycles (20%), customer satisfaction (30%), and coordinating \$10M multi-product launches.
- Achieved 15% business growth and Japan market entry (TFX T-Clear), integrating multiple teams and dependencies.
- Enhanced velocity and goal achievement by 20–30% using standardized sprint tools and Scrum-of-Scrums.

Operational Excellence & Change Leadership:

- Embedded quality practices (TDD, automated testing), reducing defects by 40% and estimation errors by 50%.
- Delivered multi-team project success with zero critical incidents, flawless audits, and high stakeholder alignment.

Progressive Change Leadership | 2005 - 2017

Advanced from Software Engineer to Technical Manager across premier organizations (JK Tech, Fiserv, R Systems, Mahindra Comviva, Iris Software), delivering enterprise solutions for global financial institutions; coached cross-functional teams on Scrum/Agile practices, recovered critical client relationships, and delivered process improvements (20%+ faster delivery, 25% cloud savings, multiple award wins).

Certifications & Executive Education

- **Product & Leadership Excellence**
 - Professional Scrum Master (PSM I) - Scrum.org (2020)
 - Finance and Financial Products - Digital University (2008)
- **AI & Security Governance**
 - AI Security & Governance - Securiti (2025)
 - Cybersecurity Governance Risk & Compliance - GRC Mastery (2024)
 - Foundations of Cybersecurity - Google (2023)
- **Emerging Technologies**
 - Generative AI for Executives - IBM (2024)
 - Cloud-Native & Multicloud Applications - IBM (2022)
 - Blockchain Essentials - IBM (2022)
